**Management's Discussion and Analysis**  
**Fiscal Year Ended June 30, 2015**

The Management Discussion & Analysis (MD&A) is a report of the City of Old Town for the fiscal year ending June 30, 2015. To the best of our knowledge and belief, the data contained herein is accurate in all material respects. This data is reported in a manner designed to fairly present the City's financial position, and the result of operations of the various funds, departments and accounts of the City. All disclosures necessary to enable the reader to gain accurate understanding of the City's financial activities have been included.

This report covers all funds, departments and accounts of the City of Old Town, that by law or other fiduciary obligation, the City administers in connection with its responsibility in providing services. We encourage readers to consider the information presented here in conjunction with additional information found within the body of the financial statements.

**THE COMMUNITY**

---

The City of Old Town is a unique island community that sits on the edge of the Great North Woods, on several islands in the Penobscot River. The City of Old Town has always held a close relationship to the Penobscot River – whether for log driving, powering sawmills, transportation, hydropower, or as a medium to float canoes. A thriving residential community of 7,840, the City of Old Town's acres of forest and beautiful waters attract outdoor enthusiasts from hunters and anglers, to hikers and canoeists, and bird watchers and photographers. More than 50 miles of rivers and streams, accessible year-round, are known nationwide for smallmouth bass. Wildlife population abounds with deer, bear, moose and coyote.

Yet with all this scenic beauty, the City of Old Town is a bustling industrial community offering access to transportation, a trained workforce, diverse population, and a progressive, forward-thinking municipal administration.

The mission of the City of Old Town is to provide and promote a safe, affordable community with quality public services. The City encourages future growth while maintaining its cultural heritage.

## **FINANCIAL INFORMATION**

---

The City Administration is responsible for establishing and maintaining an accounting and internal control structure designed to ensure that the physical, data, informational, intellectual and human resource assets of the City are protected from loss, theft and misuse, and to ensure that adequate accounting information is maintained and reported in conformity with generally accepted accounting principles (GAAP). Additionally, management strives to ensure that these assets are put to good and effective use. The internal control structure is designed to provide reasonable, but not absolute, assurances that these objectives are attained. The concept of reasonable assurance recognizes that: (1) the cost of any control should not exceed the benefit likely to be derived; (2) the valuation of cost and benefits requires judgments by management.

## **FINANCIAL HIGHLIGHTS**

---

The following is a discussion of the financial highlights of the City during the past fiscal year.

- The total balance of the City's cash and cash equivalents at June 30, 2015 was \$2,455,649.
- The City's long-term debt decreased by \$1,221,176 from \$11,592,312 to \$10,371,136.
- Under the government-wide basis of reporting, the City's total net position increased by \$286,585 to \$29,624,173.
- The governmental fund balance as reported on the City's governmental fund financial statements increased by \$620,570 to \$8,761,646.
- The City budgeted revenues, transfers-in, and special items of \$14,793,720, and expenditures and transfers out of \$16,307,649. Budgeted expenditures include \$698,475 of amounts carried forward from prior years. On a budget basis, the City's actual revenues and transfers-in exceeded its expenditures and transfers-out by \$1,337,866. This budget variance increases the budget-basis fund balance which can be used to fund future expenditures and decrease the need for significant increases in local property taxes for the residents of Old Town.

## **OVERVIEW OF THE FINANCIAL STATEMENTS**

---

The discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other required supplementary information in addition to the basic financial statements.

### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and liabilities, with the difference between the two reported as net positions. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods such as uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The government activities of the City include general government services, public safety, public works, health and welfare, education, library and recreation. The business-type activities of the City include sewer operations. The government-wide financial statements can be found on pages 4-5 of this report.

### **Fund Financial Statements**

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

## **OVERVIEW OF THE FINANCIAL STATEMENTS - continued**

---

### **Fund Financial Statements – Continued**

#### *Governmental Funds*

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. Capital assets and depreciation are not included in the governmental funds financial statements.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget. This statement is included in the required supplementary information portion of the financial statements.

The basic governmental fund financial statements can be found on pages 6-9 of this report.

#### *Proprietary Funds*

The City maintains only one type of proprietary fund. Enterprise funds are used to report the same functions as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its sewer operations. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

The basic proprietary fund financial statements can be found on pages 10-12 of this report.

#### *Fiduciary Funds*

Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the government-wide financial statements because the City cannot use these funds to finance its operations. The City currently has no fiduciary funds.

## **OVERVIEW OF THE FINANCIAL STATEMENTS - continued**

---

### **Notes to the basic financial statements**

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 13-44 of this report.

### **Other Information**

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning financial performance (budget and actual with budget to GAAP differences and budget and actual with variances). Required supplementary information can be found on pages 45-49 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented following the required supplementary information. Combining and individual statements and schedules and budgetary comparison information for the sewer fund can be found on pages 50-57 of this report.

## **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

---

Net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by \$29,624,173 as of June 30, 2015. However, of the \$29,624,173, only \$4,627,885 of governmental net position and \$39,430 of sewer net position is unrestricted and uncommitted at June 30, 2015.

A portion of the City's net position reflects its investment in capital assets (e.g. land, buildings, building improvements, vehicles, and furniture and equipment) less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide service to citizens. Consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The City's financial position is the product of several financial transactions including the net result of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

A portion of the City's net position, *84.24%*, represents resources that are restricted. Unrestricted net position of \$4,667,315 or *15.76%* may be used to meet the government's ongoing obligations to citizens and creditors.

**GOVERNMENT-WIDE FINANCIAL ANALYSIS - continued**

SUMMARY OF NET POSITION

	Governmental Activities		Business-Type Activities		Total	
	2015	2014	2015	2014	2015	2014

As of June 30, 2015, the City is able to report positive balances in all three categories of net position for the government as a whole, as well as for its governmental activities. The City was also able to report positive balances in all three categories of its net position for the business-type activities.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS - continued

The following table presents a summary of the City's operations for the fiscal year ended June 30, 2015 with comparative totals for the fiscal year ended June 30, 2014.

	Governmental Activities		Business-type Activities		Totals	
	2015	2014	2015	2014	2015	2014
Revenues:

**GOVERNMENT-WIDE FINANCIAL ANALYSIS - continued**

---

**Analysis of the City's Operations**

Overall the City had an increase in net position of \$286,585.

Graphic presentations of selected data from the summary tables follow to assist in the analysis of the City's activities for fiscal year 2015.

### Governmental Activities

#### Governmental Activities

Governmental activities increased its net position by \$396,164. Net investment in capital assets increased by \$1,659,809, or 12.66%, due to a net change in additions, retirements, and depreciation. Unrestricted net position decreased by \$464,731, or 9.13%.

Total revenues for governmental activities decreased from the prior year by \$428,579. Of this amount, charges for services increased \$6,147, or 0.27% over prior year. Operating grants and contributions decreased \$474,894, or 31.76% from the prior fiscal year; capital grants and contributions decreased \$391,449, or 91.67%, from the prior fiscal year. Property taxes increased \$397,913, or 4.23%.

Expenses of governmental activities include depreciation expense of \$857,193, an increase of 16.14% over the prior fiscal year. Depreciation expense has been allocated and is included in the various function/program expenses of the City.

## GOVERNMENT-WIDE FINANCIAL ANALYSIS - Continued

---

The following illustration presents the cost of each of the City's four largest programs – general government, public safety, public works, and education - as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the City's taxpayers by each of these functions.

	Governmental Activities			
	Total Cost		Net Cost	
	2015	2014	2015	2014
General government	\$ 1,991,133	\$ 2,409,613	\$ 1,808,574	\$ 1,673,872
Public Safety	3,487,080	3,385,582	2,574,103	2,609,034
Public Works	1,861,210	1,658,502	1,855,035	1,620,870
Education	5,561,426	5,387,483	5,561,426	5,387,483
	<u>\$ 12,900,849</u>	<u>\$ 12,841,180</u>	<u>\$ 11,799,138</u>	<u>\$ 11,291,259</u>

### *Business-type Activities*

Net position from business-type activities decreased by \$109,579, 1.48%, from \$7,403,396 to \$7,293,817. This decrease was primarily due to the sewer fee structure being insufficient to support the cost of operations.

Charges for services decreased \$58,799, or 4.47%, from the prior year, while expenses decreased \$229,785. Depreciation expense increased from \$471,617 to \$482,986, or \$11,369, from the prior year.

## FINANCIAL ANALYSIS OF THE CITY'S FUNDS

---

### *Governmental Funds*

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balance of \$8,761,646, \$620,570 higher than the previous year. Approximately \$2,790,082 of this amount, or 31.84%, constitutes unassigned fund balance, an increase of \$1,641,700 over the previous year. The remainder of the fund balance is nonspendable, restricted, committed or assigned to indicate that it is not available for new spending.

## **FINANCIAL ANALYSIS OF THE CITY'S FUNDS - Continued**

---

Total governmental fund expenditures for the year were \$16,010,733, representing a decrease of \$334,073, or 2.0% from the previous fiscal year. The City paid \$827,137 in capital outlays which includes the acquisition of police vehicles, an ambulance, airport improvements as well as several other projects.

### *Proprietary Funds*

The City's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the sewer fund was \$39,430 which represents a \$138,585 increase from the previous year.

### *General Fund Budgetary Highlights*

In the general fund, the City originally budgeted for a decrease in the fund balance on a budget basis of \$1,195,474. Budgeted expenditures included \$698,475 of carry forwards. Actual revenues were more than budgeted; in addition actual expenses were less than budgeted and transfers were more than budgeted, therefore, the actual fund balance increase for fiscal year 2015 was \$1,337,866 on a budget basis.

Revenues from property taxes totaled \$10,736,444. Charges for services accounted for \$2,203,635 and intergovernmental revenue accounted for \$1,576,044 of total revenue of \$17,059,966 on a budget basis. Revenues from property taxes increased by \$2,391,861, revenues from charges for services increased by \$1,824 and revenues from intergovernmental sources decreased by \$658,439 on a budget basis.

The City Council authorized revisions to the original approved appropriations. Overall these changes resulted in an increase in budgeted expenditures from the original budget of \$318,455 or 2.0%. Increases were in operational expenditures and additional funding for capital outlays.

There were a few significant budget-to-actual variances. Of these, intergovernmental revenues were more than budgeted due to grant activity. General government and capital outlay expenditures were less than budgeted. General government costs were less due to various items throughout several departments. There are several capital outlay projects uncompleted as of yearend and a number of those account balances have been carried forward to next year. Public safety expenditures exceeded the budget due to personnel turnover and use of overtime to fill unscheduled shifts, which resulted in higher than anticipated costs.

## CAPITAL ASSETS AND DEBT ADMINISTRATION

### Capital Assets

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2015, amounts to \$27,353,164, net of accumulated depreciation. The investment in capital assets includes land, building, equipment, improvements, infrastructure and construction in progress. Major capital asset events during the current fiscal year include police vehicles, a truck, continuation of the airport runway improvement projects and sewer improvements. The following summarizes capital assets at year end:

	Capital Assets at Year-End (Net of Depreciation)					
	Governmental Activities		Business-type Activities		Totals	
	2015	2014	2015	2014	2015	2014
Land & Improvements	\$ 1,945,077	\$ 1,792,579	\$ 179,427	\$ 179,427	\$ 2,124,504	\$ 1,972,006

### Debt Administration

The City's debt consists of eight bonds from various lending sources.

	Governmental Activities		Business-Type Activities		Totals	
	2015	2014	2015	2014	2015	2014
Bonds Payable	\$ 7,155,860	\$ 8,085,035	\$ 3,209,645	\$ 3,496,216	\$ 10,365,505	\$ 11,581,251
Bond Anticipation Note	-	-	-	2,100,000	-	2,100,000
Capital Lease Obligations	5,631	11,061	-	-	5,631	11,061
Totals	<u>\$ 7,161,491</u>	<u>\$ 8,096,096</u>	<u>\$ 3,209,645</u>	<u>\$ 5,596,216</u>	<u>\$ 10,371,136</u>	<u>\$ 13,692,312</u>

A summary of the City's debt activity for the year ended June 30, 2015 is detailed in Note 6 on pages 28-30 of this report.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

---

The City of Old Town has been preparing for its future by working on five distinct and significant development projects which will position the City to respond to anticipated future development needs. These projects will place the City of Old Town in an excellent position for new, diversified growth and economic opportunities; Airport, Airport Business Park, Old Town Enterprise Park, Stillwater Avenue and Eco-Cultural Tourism. Most of these projects have had significant capital support in past years and should not need the same level of investment to support or institute their use in the future. Old Town has a population of 7,840 according to the 2010 Maine Census. The regional labor force of almost 90,000 is well known for its quality skills and abilities. The labor skill set readily adapts to the needs and demands of new retail, service and industrial firms of the region.

The FY 16 budget will provide the necessary resources to address most service and capital needs of the community and its residents at a tax rate that is reasonable. The City has, in the past, made significant cuts in the budget prior to presenting it to the City Council, but given the current economic conditions the City is certainly affected by increased costs due to certain commodity cost increases.

Due to demands from Citizens not to decrease services, the City's goal is to maintain the existing level of service as we look for ways to reduce costs. The mil rate was \$20.21 in FY15 and increased to \$21.16 in FY16. During the past 15 years the total increase to the City budget has averaged at or below the cost of living.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES - Continued**

---

The City continues to develop properties that can be marketed for industrial and business growth in the City. These projects include Airport-Aviation Projects, Airport Business Park, Private Hangars, Old Town Canoe grants and TIF, Former Old Town Canoe Brownfield site, Old Town Enterprise Park (Penny Road) and Eco-Cultural Tourism projects. Funding is from grants and City reserve accounts.

The Strategy of this base development is to increase the taxable property in the City to offset budgetary increases for the City, School and County services, especially in light of the last few years of changes to the existing industrial tax base, as well as developing new opportunities for future generations to live and work in Old Town.

## **REQUEST FOR INFORMATION**

---

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information concerning these financial reports, contact the Finance Department, Attn: Finance Director, 265 Main Street, Old Town, Maine 04468, telephone 207-827-3965.

## INDEPENDENT AUDITORS' REPORT

To the City Council  
City of Old Town, Maine

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Old Town, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditors' Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the

appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Old Town, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Funding Progress – Retiree Healthcare Plan, Schedule of the City's Proportionate Share of the Net Pension Liability, Schedule of City Contributions, and budgetary comparison information on pages *i - xiv*, 38 and 45 - 49 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express any assurance.

#### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Old Town's financial statements as a whole. The proprietary fund budgetary comparison schedules, combining and individual nonmajor fund financial statements, and tax receivable schedule, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The proprietary fund budgetary comparison schedules, combining and individual nonmajor fund financial statements, and tax receivable schedule are the responsibility of management and were derived from and

**Visit us online: [www.roycpas.com](http://www.roycpas.com)**

relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the proprietary fund budgetary comparison schedules, combining and individual nonmajor fund financial statements, and tax receivable schedule are fairly stated in all material respects in relation to the financial statements as a whole.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2015 on our consideration of the City of Old Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Old Town's internal control over financial reporting and compliance.

**City of Old Town, Maine**  
**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN**  
**FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES**  
For the Year Ended June 30, 2015

Net change in fund balances - total governmental funds:	\$ 620,570
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the statement of activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period.	
This is the amount by which depreciation, \$857,194, exceeded capital outlays, \$2,190,072, in the current period.	1,332,878
Governmental funds report the entire net sales price (proceeds) from sale of an asset as revenue because it provides current financial resources. In contrast, the statement of activities reports only the gain on the sale of the assets. Thus, the change in net assets differs from the change in fund balance by the cost of the asset sold.	
	(16,244)
Prepays are not reported as assets in the fund financial statements but are reported as assets in the governmental activities of the statement of net assets.	
	15,533
Governmental funds do not present revenues that are not available to pay current obligations. In contrast, such revenues are reported in the statement of activities when earned.	
	(940,951)
Governmental funds report proceeds of long-term debt as current financial resources. In contrast, the statement of activities treats such issuance of debt as a liability. Governmental funds report repayment of long-term debt as an expenditure, in contrast, the statement of activities treats such repayments as a reduction in long-term liabilities. This is the amount by which repayments exceeded proceeds.	
	343,175
Certain expenditures are reported in the funds. However, they either increase or decrease long-term liabilities reported on the Statement of Net Position and have been eliminated from the Statement of Activities.	
	171,304
Some expenses reported in the statement of activities do not require the use of current financial resources and these are not reported as expenditures in governmental funds:	
Accrued interest not reflected on governmental funds	6,109
Accrued compensated absences	21,094
Accrued post employment benefits	(29,754)
Pension expense	(111,039)
Change in net position of governmental activities	\$ 1,412,675

The accompanying notes are an integral part of the financial statements.

City of Old Town, Maine  
NOTES TO FINANCIAL STATEMENTS  
June 30, 2015

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The City of Old Town (the “City”) was incorporated on March 30, 1891 under the laws of the State of Maine. The City operates under a Council-Manager form of government and provides the following services: general government services, public safety, public works, health and welfare, education, library and recreation.

The accounting and reporting policies of the City relating to the funds included in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *Audits of State and Local Governmental Units* and the Financial Accounting Standards Board Standards, when applicable. The more significant accounting policies of the City are described below.

**A. Financial Reporting Entity**

The City’s basic financial statements include the accounts of all City operations. The criteria for including organizations as component units within the City’s reporting entity, as set forth in Section 2100 of GASB’s *Codification of Governmental Accounting and Financial reporting Standards*, include whether:

- the organization is legally separate (can sue and be sued in its own name)
- the City holds the corporate powers of the organization
- the City appoints a voting majority of the organization’s board
- the City is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the City
- there is fiscal dependency by the organization on the City

Based on the aforementioned criteria, the City of Old Town has one component unit, Old Town Development, LLC. Old Town Development is a legally separate organization that has its board appointed by the primary government and whose sole member is the primary government. Therefore, the City reports Old Town Development’s balances and transactions as though they were a part of the primary government, using the blending method.

Old Town Development was created in 2010 for purposes related to the promotion and facilitation of economic development within the City of Old Town, including, but not limited to, the application for and receipt of grant and/or other funds identified by the Managers and the disbursement of such funds, to own, hold, manage, develop, rehabilitate and/or lease land and buildings located in Old Town, Maine and for such other purposes reasonably related to or ancillary to the foregoing as approved by the Managers.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**B. Basis of Presentation**

*Government-wide Financial Statements*

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the City. The effect of interfund activity within the governmental and business-type activities columns, if applicable, has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Fiduciary funds and/or component units that are fiduciary in nature are not included in government-wide financial statements.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

*Fund Financial Statements*

The City segregates transactions related to certain functions or activities into separate funds in order to aid financial management and to demonstrate legal compliance. Separate statements are presented for governmental, proprietary and fiduciary activities (when applicable). These statements present each major fund as a separate column on the fund financial statements, all non-major funds are aggregated and presented in a single column.

**C. Governmental Funds**

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses, and balance of current financial resources.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**C. Governmental Funds - Continued**

The City has presented the following governmental funds:

*General Fund*

The general fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the general fund.

*Capital Reserves Fund*

The capital reserves fund is used to account for funds reserved by authorization of City Council.

**D. Proprietary Funds**

Proprietary funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. The accounting objectives are determinations of net income, financial position and cash flow. All assets and liabilities are included on the statement of net assets.

The City has presented the following major proprietary fund:

*Enterprise Fund*

The enterprise fund is used to account for the operations of the waste water treatment plant. Activities of the fund include administration, operations and maintenance of the sewer system and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of long-term debt for the sewer fund. All costs are financed through charges to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the fund.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of personnel, contractual services, supplies and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**E. Fiduciary Funds (Not included in the government-wide statements)**

Fiduciary funds are not included in the government-wide statements. The City currently has no fiduciary funds.

**F. Measurement Focus/Basis of Accounting**

Measurement focus refers to what is being measured, basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting refers to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net assets and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned, including unbilled sewer services which are accrued. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Agency funds are also presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e. when they are “measurable and available”). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The City considers property taxes available if they are collected within 60 days after year end. A one-year availability period is used for recognition of all other governmental fund revenues. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

The revenues susceptible to accrual are property taxes, intergovernmental revenues and charges for services. All other governmental fund revenues are recognized when received.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**G. Fund Balance Restrictions**

Fund balances for governmental funds have been classified in accordance with section 1800, Classification and Terminology, of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*. The City reported the following fund balance restrictions:

*Nonspendable Fund Balance* – indicates items that cannot be spent. This includes activity that is not in a spendable form (inventories, prepaid amounts, long-term portion of loans/notes receivable, or property held for resale unless those proceeds are restricted, committed or assigned) and activity that is legally or contractually required to remain intact, such as a principal balance in a permanent fund.

*Restricted Fund Balances* – includes balances that are legally restricted for specific purposes due to constraints that are either externally imposed by creditors, grantors, contributors, or imposed by law through a constitutional provision or enabling legislation.

*Committed Fund Balances* – indicates assets that can be used only for specific purposes pursuant to constraints imposed by a formal action of a vote of the City Council, the City's highest level of decision-making authority. This formal action is the passage of the City budget, creating, modifying, or rescinding an appropriation.

*Assigned Fund Balances* – includes amounts that are constrained by the City's intent to be used for a specific purpose, but are neither restricted nor committed. For governmental funds, other than the General Fund, this is the residual amount within the fund that is not restricted or committed.

*Unassigned Fund Balance* – is the residual amount of the General Fund not included in the four categories described above. Also, any deficit fund balances within the other governmental fund types are reported as unassigned.

**H. Revenues and Expenses**

In the government-wide Statement of Activities, revenues and expenses are segregated by activity (governmental or business-type), then further by function (e.g. general government, public safety, education, etc.). Additionally, revenues are classified between program and general revenues. Program revenues include: charges to customers or applicants for goods, services, or privileges provided; operating grants and contributions; and capital grants and contributions. Internally dedicated resources are reported as general revenues, rather than as program revenue. General revenues include all taxes. Certain indirect costs are included in the program expenses reported for individual functions.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**H. Revenues and Expenses - Continued**

In the governmental fund financial statements, revenues are reported by source. For budgetary control purposes, revenues are further classified as restricted or unrestricted, which can further be classified as committed, assigned or unassigned. The City's policy is that restricted amounts are spend first when an expenditure is incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available. Within unrestricted fund balance, the City's policy is that committed amounts are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

In the governmental fund financial statements, expenditures are reported by function.

Revenues and expenses of proprietary funds are classified as operating or nonoperating and are sub-classified by object. The City uses the criteria prescribed in Section 2450 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, Cash Flows Statements, paragraphs .114 and .115 to determine operating revenues and expenses. Operating revenue includes sewer user fees, and all other revenues that do not result from transactions defined as capital and related financing, non-capital and related financing, or investing activities. Operating expenses include salaries and wages, utilities, maintenance, depreciation of fixed assets, administrative expenses and all other expenses that do not result from transactions defined as capital and related financing, non-capital and related financing, or investing activities.

**I. Budgets and Budgetary Accounting**

The City utilizes a formal budgetary accounting system to control revenues accounted for in the general fund and the enterprise fund. These budgets are established in accordance with the various laws which govern the City's operations.

Generally, appropriations for the general fund and the enterprise fund lapse at year end, except for balances approved to be carried forward by City Council.

Formal budgets are not adopted for the other funds. Grant procedures for many of the revenues included in the special revenue funds require submission of a budget. However, such budgets are not subject to formal adoption procedures and are normally prepared based upon the grant period which does not necessarily correspond with the City's fiscal year.

The City prepares its general fund annual budget on a basis (budget basis), which differs from generally accepted accounting principles (GAAP basis). Additional information is presented in Note 2.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**J. Deposits and Investments**

For purposes of the statement of cash flows, the proprietary and fiduciary funds consider all highly liquid investments, except for money market mutual funds, with a maturity of three months or less to be cash equivalents. Additional information is presented in Note 3.

Investments are reported at fair value based on quoted market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties. Additional information is presented in Note 3.

**K. Inventories**

Inventories of gasoline in the general fund are valued at the lower of cost or market value.

**L. Interfund Receivables and Payables**

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

**M. Transactions Between Funds**

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of governmental funds.

**N. Capital Assets**

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds, if applicable. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are stated at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**N. Capital Assets - Continued**

General fixed assets capitalized have an original cost of \$5,000 or more and over one year of useful life. General infrastructure assets capitalized have an original cost of \$25,000 or more and over one year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method over the following estimated useful lives:

Buildings & Improvements	20-50 (Years)
Sewer Systems	50-100
Machinery & Equipment	3-50
Vehicles	3-25
Infrastructure	20-35

In the fund financial statements, fixed assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

**O. Long-term Debt**

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of notes or bonds payable and capital leases.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. Debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund debt is the same in the fund statements as it is in the government-wide statements.

**P. Compensated Absences**

The City's policies regarding vacation and sick time permit employees to accumulate earned but unused vacation and sick leave. The liability for these governmental compensated absences is recorded in both the government-wide and fund financials. The proprietary funds report the liability as it is incurred, also in both the government-wide and fund financials.

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Q. Net Position**

Net position represent the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

**R. Property Taxes**

Property taxes (real and personal, except vehicles) are assessed to the owner of record on April 1. On August 26, 2014 the taxes were committed to the tax collector for collection. One half of the taxes were due on September 18, 2014 and the second half was due on March 19, 2015. Interest is assessed from September 19, 2014 and March 20, 2015 at 7.00% per year on any amount unpaid as of September 19, 2014 and March 20, 2015 respectively. Tax liens on delinquent taxes may be placed on real property after eight months and within twelve months following the commitment date. The City may foreclose on property if the lien, interest and costs are not paid within eighteen months from the date the lien is filed.

The City is permitted by statute to levy taxes up to 105% of its net budgeted expenditures for the fiscal year.

Included in the City's tax assessment of \$20.21 per \$1,000 of assessed valuation is \$1.28 which represents the local assessment for county taxes and \$11.43 which represents the local assessment for Education. These taxes are collected by the City and forwarded as required by the taxing agency.

The 2015 tax levy is summarized as follows:

Assessed Value	
Real property	\$ 441,376,467
Personal property	45,219,278
	<u>486,595,745</u>
Tax rate (per \$1,000)	<u>20.21</u>
Commitment	9,834,100
Supplementals	23,524
Less collections and abatements	<u>9,575,987</u>
Receivable at June 30, 2015	<u><u>\$ 281,637</u></u>
 Collection rate	 97.38%

**1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued**

**S. Accounting Changes**

During fiscal year 2015, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*. GASB 68 improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entites.

**2. BUDGET BASIS OF ACCOUNTING**

The City prepares its general fund annual budget on a basis (budget basis), which differs from generally accepted accounting principles (GAAP basis). The budget and all transactions on page 40 are presented in accordance with the City’s method (budget basis) in the Budget and Actual (with budget to GAAP differences) – General Fund to provide a meaningful comparison of actual results with the budget. The major difference between budget and GAAP basis in the general fund is compensated absences are recognized for GAAP basis only.

Adjustments necessary to convert the general fund’s excess of revenues and other sources over expenditures and other uses on the budget basis to GAAP basis are provided below:

Net change in fund balances - budget basis	\$ 1,337,866
Billing revenue in expenditures - revenue	(27,714)
Billing revenue in expenditures - expenditures	27,714
Other financing source in revenue - revenue	(738,209)
Other financing source in revenue - OFS	738,209
End of year adjustment for compensated absences not recognized as expenditures	60,778
Net change in fund balances - GAAP basis	<u>\$ 1,398,644</u>

The City also prepares its sewer fund annual budget on a basis which differs from GAAP. The budget and all transactions on page 42 are presented in accordance with the City’s method (budget basis) in the Budget and Actual (with budget to GAAP differences) – Sewer Fund to provide a meaningful comparison of actual results with the budget. The major differences between budget and GAAP basis in the sewer fund are depreciation and other post employment benefits which are recognized for GAAP basis only and capital asset additions and principal payments which are recognized for budget basis only.

**2. BUDGET BASIS OF ACCOUNTING – Continued**

Adjustments necessary to convert the sewer fund’s excess of revenues and other sources over expenditures and other uses on the budget basis to GAAP basis are provided below:

Net change in net position - budget basis	\$ (569,122)
Current year depreciation expense	(482,986)
Current year capital asset additions	156,887
Current year principal payments	286,572
Other post employment benefits	(3,228)
End of year adjustment for compensated absences not recognized as expenditures	(2,102)
Charges for services not recognized as revenue	504,400
Net change in net position - GAAP basis	<u><u>\$ (109,579)</u></u>

**3. DEPOSITS AND INVESTMENTS**

**A. Deposits**

*Custodial Credit Risk:* Custodial credit risk is the risk that in the event of a bank failure, the City’s deposits may not be returned to it. The City does not have a deposit policy for custodial credit risk. As of June 30, 2015, the City reported deposits of \$2,455,649 with bank balances of \$2,449,461. Of the City’s total bank balance of \$2,449,461, \$2,449,461 was collateralized by underlying securities held by the related bank, which were not in the City’s name.

Reported in governmental funds	\$ 2,181,246
Reported in proprietary funds	<u>274,403</u>
Total Deposits	<u><u>\$ 2,455,649</u></u>

**3. DEPOSITS AND INVESTMENTS – Continued**

**B. Investments**

Maine statutes authorize the City to invest in certificates of deposit, repurchase agreements, and other available bank investments. In addition, the City can invest in direct debt securities obligations of the U.S. Treasury and U.S. agencies, repurchase agreements, certain corporate stocks and bonds and certificates of deposit.

*Custodial Credit Risk:* Custodial credit risk is the risk that in the event of failure of the counterparty, the City will not be able to recover the value of its investments. The City does not have an investment policy for custodial credit risk. The City’s investments of , invested in money market funds, U.S. Treasury notes, U.S. Agency notes, corporate bonds, stock mutual funds and common stock, are not exposed to custodial credit risk as the investments are in the City’s name.

*Concentration of Credit Risk:* Concentration of credit risk is the risk of loss attributed to the magnitude of a government’s investment in a single issuer. There is no concentration of credit risk policy for the City’s investments. At June 30, 2015, there were no investments that represent five percent or more of total investments. Investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds are excluded from this requirement.

*Credit Risk:* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. This credit risk is measured by the credit quality ratings of investments as described by nationally recognized statistical rating organizations. The City's total investments by credit quality rating as of June 30, 2015 are:

	AA+	Not Rated	Total
U.S. Agency Notes	\$ 2,490,100	\$ -	\$ 2,490,100
	\$ 2,490,100	\$ -	\$ 2,490,100

**3. DEPOSITS AND INVESTMENTS – Continued**

**B. Investments – Continued**

*Interest Rate Risk:* Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The City does not have a policy related to interest rate risk. The City is required to disclose the interest rate risk of its debt investments as follows.

	<u>Due in less than one Year</u>	<u>Due in 1-5 Years</u>
U.S. Agency Notes	\$ 1,135,698	\$ 1,354,402
Corporate Bonds	248,727	498,358
Repurchase Agreements	1,829,719	-
Total debt investments	<u>\$ 3,214,144</u>	<u>\$ 1,852,760</u>

Investments of \$6,663,093 have been reported as follows:

Reported in governmental funds	\$ 6,220,330
Reported in proprietary funds	442,763
Total Investments	<u>\$ 6,663,093</u>

The City's investments by type are as follows:

U.S. Agency Notes	\$ 2,490,100
Corporate Bonds	747,085
Repurchase Agreements	1,829,719
Mutual Funds	401,726
Equities	1,194,463
	<u>\$ 6,663,093</u>

**4. RECEIVABLES**

Receivable balances are segregated by type, and presented in the fund financial statements net of allowance for uncollectible amounts. The following table disaggregates amounts considered to be uncollectible by fund and type of receivable as of June 30, 2015:

	<u>Accounts</u>	<u>Loans</u>	<u>Allowance for Uncollectibles</u>	<u>Net Receivables</u>
<b>Governmental Funds:</b>				
General Fund	\$ 572,634	\$ 285,147	\$ (89,000)	\$ 768,781
Capital Reserves	-	-	-	-
Total Governmental Funds	<u>572,634</u>	<u>285,147</u>	<u>\$ (89,000)</u>	<u>768,781</u>
Allowance for Uncollectibles	<u>(73,000)</u>	<u>(16,000)</u>		
Net Receivables	<u>\$ 499,634</u>	<u>\$ 269,147</u>		<u>\$ 768,781</u>
<b>Proprietary Funds:</b>				
Sewer Fund	\$ 420,231	\$ 124,944	<u>\$ (42,000)</u>	\$ 503,175
Allowance for Uncollectibles	<u>(35,000)</u>	<u>(7,000)</u>		
Net Receivables	<u>\$ 385,231</u>	<u>\$ 117,944</u>		<u>\$ 503,175</u>

**5. CAPITAL ASSETS**

Capital asset activity for the year ended June 30, 2015 is summarized below.

	<u>Balance 06/30/14</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance 06/30/15</u>
<b>Governmental Activities:</b>				
<i>Non-Depreciable Assets:</i>				
Land	\$ 1,275,120	\$ 134,300	\$ -	\$ 1,409,420
Construction in Progress	2,989,770	220,513	(527,578)	2,682,705
Total Non-Depreciable Assets	<u>4,264,890</u>	<u>354,813</u>	<u>(527,578)</u>	<u>4,092,125</u>
<i>Depreciable Assets:</i>				
Buildings & Improvements	8,072,356	957,159	-	9,029,515
Equipment & Furniture	3,199,245	256,423	(39,200)	3,416,468
Vehicles	2,261,607	279,170	(236,671)	2,304,106

As of July 1, 2009, the City of Old Town School Department joined Regional School Unit (RSU) #34. As part of the agreement, certain liabilities of the school department were transferred to RSU #34, except for general obligation bonds which remain obligations of the City of Old Town. RSU #34 is obligated to reimburse the City for the annual debt service payments on the school-related bonds of \$4,006,556. This obligation has been recorded as a long-term receivable from RSU #34 on the entity wide statement of net position.

**Other Long-Term Debt**

The following is a summary of other long-term debt transactions of the City for the fiscal year ended June 30, 2015:

	Balance 06/30/14	Additions	Reductions	Balance 06/30/15	Due Within One Year
<b>Governmental Activities:</b>					
Capital lease	\$ 11,061	\$ -	\$ 5,430	\$ 5,631	\$ 5,631
Compensated absences	425,532	36,310	121,630	340,212	68,042
Other post employment benefits	251,007	49,130	19,376	280,761	-
Pension	-	1,152,930	547,378	605,552	-
Total Governmental Activities	<u>\$ 687,600</u>	<u>\$ 1,238,370</u>	<u>\$ 693,814</u>	<u>\$ 1,232,156</u>	<u>\$ 73,673</u>
<b>Business-Type Activities</b>

Total Business-Type Activities	<u>\$ 67,332</u>	<u>\$ 10,643</u>	<u>\$ 5,313</u>	<u>\$ 72,662</u>	<u>\$ 8,010</u>

**6. LONG-TERM DEBT – Continued**

**Obligations Under Capital Leases**

The City leases various assets under noncancelable leasing arrangements. Leases that are comparable to purchases are classified as capital leases. In the government-wide and proprietary fund statements, assets and liabilities resulting from capital leases are recorded at lease inception. The principal portion of lease payments reduces the liability; the interest portion is expensed.

Most leases have cancellation clauses in the event that funding is not available. For reporting purposes, such cancellation clauses are not considered because the likelihood that they will be exercised is considered remote. Some lease agreements include renewal or purchase options. The effect of such options is reflected in the minimum lease payments only if it is considered reasonably assured that an option will be exercised.

At June 30, 2015 capital assets include \$27,110 of capitalized leased equipment in the governmental activities, net of related accumulated depreciation of \$19,880.

A summary of the noncancelable capital lease commitments to maturity follows:

<u>Year Ended June 30</u>	<u>Capital Leases</u>
2016	\$ 5,840
Total Minimum Payments	5,840
Less: Amount Representing Interest	<u>210</u>
Present Value of Future Minimum Payments	<u>\$ 5,630</u>

**Short-Term Obligations**

The City of Old Town issued a Bond Anticipation Note (BAN) for \$2.1 million on July 19, 2013. The BAN has an interest rate of 0.93% and is due on December 31, 2014. Short-term obligations are used to meet temporary operating cash flow needs. At June 30, 2014 the City had \$2.1 million of outstanding BANs. The total \$2.1 million was retired during the fiscal year. At June 30, 2015 there were no of outstanding BANs.

**7. TAX INCREMENT FINANCING**

The City currently has three approved tax increment financing (TIF) districts. The objective of these TIF districts is to stimulate new investment in the community, through various tax increment financing projects. Taxes derived from increased assessed valuation within the districts can be “captured” for approved uses. The City accounts for its portion of the activity of the TIF districts, including captured taxes and expenditures for approved purposes, in a capital reserve fund. The following is a brief description of each district:

**Penobscot County Federal Credit Union** –This TIF was established in 2007 and is for 10 years. The amount set aside for Penobscot County Federal Credit Union is 75% of the captured assessed value in the District for the first five years and 50% for the final five years. The remaining percentage is retained by the City for economic development within the City.

**Humble Beginnings, LLC/Old Town Industrial Park** –This TIF was established in 2007 and the original term was for 10 years. On October 23, 2009, the City’s application to amend the original agreement was approved. The new agreement extends the term from 10 to 11 years. The amount set aside for Humble Beginnings, LLC/Old Town Industrial Park is 100% of the captured assessed value in the District for the first 10 years and 50% for the final year. The final year is unsheltered and can be deposited into the City’s general fund.

The percentage of TIF revenues to be returned to the Developer as part of a Credit Enhancement Agreement (CEA) is 80% for years one and two and 100% for years three to 11. For years one and two the remaining TIF revenues will be applied in accordance with the original agreement.

**8. INTERFUND TRANSACTIONS**

Interfund balances of amounts due to/from other funds and operating transfers by fund at and for the year ended June 30, 2015 are as follows:

	Due from Other Funds	Due to Other Funds	Transfers In	Tranfers Out
General fund	\$ 37,842	\$ 3,145,428	\$ 1,022,382	\$ 267,779
Capital reserves fund	3,145,428	22,407	267,779	1,022,382
Other governmental funds	-	15,435	-	-
	<u>\$ 3,183,270</u>	<u>\$ 3,183,270</u>	<u>\$ 1,290,161</u>	<u>\$ 1,290,161</u>

**8. INTERFUND TRANSACTIONS – Continued**

Transfers are used to (1) move revenues that are collected in accordance with the budget to the appropriate fund to expend and (2) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorization.

During fiscal year 2015, the City of Old Town, in accordance with the authorized budget, recorded several non-routine, nonrecurring transfers.

The Heavy Equipment Replacement Reserve transferred \$315,000 to the General Fund, and the Airport Hangar Reserve transferred \$197,715 to the General Fund.

**9. NET POSITION – ENTERPRISE FUND – RESTRICTED – OTHER PURPOSES**

At June 30, 2015, the enterprise fund’s restricted fund balance for other purposes was comprised of the following:

Capital outlay - equipment and facility	<u>\$ 211,255</u>
---	-------------------

**10. FUND BALANCES**

The City’s fund balances represent: (1) restricted purposes, which include balances legally restricted for specific purposes due to constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; (2) committed purposes, which include balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the City Council; (3) assigned purposes, which includes residual amounts within the funds that are neither restricted nor committed.

Restricted fund balances for the year ended June 30, 2015 are as follows:

General Fund:	
BIDE (MDEA Drug Program)	\$ 6,909
2015 Evidence Based Impaired Driving	329
2015 Click It or Ticket	1,962
Brownfield Cleanup	1,070
Airport Beacon	<u>84,893</u>
Total General Fund	<u>95,163</u>
Permanent Funds:	
Cemetery	792,428
Public Library	743,052
Library Trust	-
Total Permanent Funds	<u>1,535,480</u>
Total Restricted Fund Balance	<u><u>\$ 1,630,643</u></u>

Committed fund balances for the year ended June 30, 2015 are as follows:

General Fund:	
Employee Benefits	\$ 2,272
City Manager	7,519
Information Technology	61,715
Airport	35,255
Juniper Ridge Landfill	246,731
Capital Projects	<u>278,737</u>
Total General Fund Committed Balance	<u>632,229</u>

**10. FUND BALANCES – Continued**

Capital Reserves:	
Old Town Development LLC	302,184
Tech equipment	214,595
Heavy equipment	1,269,751
Community center reserve	28,500
Highway block grant	166,848
Economic development	114,764
Airport hangar	247,252
J Ridge landfill	234,958
City facilities	281,291
Debt service	167,395
Donations - library	16,545
Community festival	10,815
175th Anniversary	4,370
Concerts in the park	2,197
Skateboard park	37,948
Public safety programs	15,383
Book restoration	328
Save the pool	3,834
Library friends	4,063
Total Capital Reserves Committed Balance	<u>3,123,021</u>
Total fund balance - committed	<u><u>\$ 3,755,250</u></u>

At June 30, 2015, the governmental fund assigned fund balances were comprised of the residual balance in governmental funds other than the general fund.

**11. PENSION PLANS**

**A. Defined Benefit Pension Plans**

The City has contributed to the MainePERS Participating Local District (PLD) Consolidated Retirement Plan. The PLD Plan is a multiple-employer cost sharing plan. Eligible employers (districts) are defined in Maine statute. As of June 30, 2014 there were 286 employers in the plan.

*Pension Benefits*

Benefit terms are established in Maine statute; in the case of the PLD Consolidated Plan, an advisory group, also established by statute, reviews the terms of the plan and periodically makes recommendations to the Legislature to amend the terms. The System's retirement programs provide defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit. In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. The normal retirement age is determined by whether a member had met certain creditable service requirements on specific dates, as established by statute. For PLD members, normal retirement age is 60. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by the System's Board of Trustees and is currently 5.0%.

*Contributions*

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Member and employer contribution rates are each a percentage of applicable member compensation. Member contribution rates are defined by law or Board rule and depend on the terms of the plan under which a member is covered. Employer contribution rates are determined through actuarial valuations. The City made matching contributions of \$171,304 and employees contributed \$255,910 for a total contribution of \$427,214 for municipal employees.

**11. PENSION PLANS - Continued**

**B. Net Pension Liability**

The net pension liability was measured as of June 30, 2014 and 2013, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The following methods and assumptions applied to all periods included in the measurement:

Actuarial Assumptions

The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements: the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each employee. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his or her expected future salary. The normal cost for each employee is the product of his or her pay and his or her normal cost rate. The normal cost for the group is the sum of the normal costs for all members.

Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

The net pension liability of the PLD Consolidated Plan is amortized on an open basis over a period of fifteen years.

Significant actuarial assumptions employed by the actuary for funding purposes of June 30, 2014 and 2013 are as follows:

- Investment Rate of Return* – 7.25% per annum, compounded annually
- Salary Increases, Merit and Inflation* – 3.50% to 9.50% per year
- Mortality Rates* – RP2000 tables projected forward to 2015 using Scale AA
- Cost of Living Benefit Increases* – 3.12% per annum

**11. PENSION PLANS - Continued**

**B. Net Pension Liability - Continued**

Actuarial Assumptions – Continued

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan’s target asset allocation as of June 30, 2014 are summarized in the following table.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equities	20%	2.5%
Non-US Equities	20%	5.5%
Private Equity	10%	7.6%
Real Assets:		
Real Estate	10%	3.7%
Infrastructure	10%	4.0%
Hard Assets	5%	4.8%
Fixed Income	25%	0.0%

Discount Rate

The discount rate used to measure the collective total pension liability was 7.25% for 2013 for the PLD Plan. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**11. PENSION PLANS – Continued**

**C. Changes in the Net Pension Liability**

Changes in net pension liability are recognized in pension expense for the year ended June 30, 2014 with the following exceptions.

*Differences between Expected and Actual Experience* – The difference between expected and actual experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members of the plan. For 2014, this was 4 years for the PLD Consolidated Plan.

*Differences between Projected and Actual Investment Earnings* – Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period.

*Changes in Assumptions* – Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members of the plan. There were no changes in assumptions for the PLD Consolidated Plan.

*Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions* – Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in the plan. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability.

**11. PENSION PLANS – Continued**

**C. Changes in the Net Pension Liability - Continued**

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following table show how the net pension liability/(asset) as of June 30, 2014 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate.

	<u>1% Decrease (6.25%)</u>	<u>Current Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
City's net pension liability	\$ 1,889,143	\$ 605,552	\$ (467,371)

Pension Plan Fiduciary Net Position

Additional financial and actuarial information with respect to the plan can be found in the MainePERS' 2014 Comprehensive Annual Financial Report available online at [www.maineopers.org](http://www.maineopers.org) or by contacting the System at (207) 512-3100.

**D. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

For the year ended June 30, 2015, the City recognized pension expense of \$111,039. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 76,039	\$ -
Net difference between projected and actual investment earnings on pension plan investments	-	643,134
Changes in proportion and differences between employer contributions and proportionate share of contributions	45,097	-
	<u>\$ 121,136</u>	<u>\$ 643,134</u>

**11. PENSION PLANS – Continued**

**E. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - Continued**

Amounts reported as deferred outflows of resources and deferred inflows of resources to pensions will be recognized in pension expense as follows:

<b>Year ended June 30:</b>	
2016	\$ (120,406)
2017	(120,406)
2018	(120,404)
2019	(160,782)

**F. Deferred Compensation Plan**

The City also provides a 457 Deferred Compensation Plan (defined contribution plan – DCP) and a 401 qualified plan both of which are administered by International City Manager Association (ICMA) Retirement Corporation. Copies of the most recent financial reports may be obtained from the plan administrator.

The City contributes at rates which vary from 0 to 6.5%, depending on the monthly elections and contributions of participants. Employees may elect to contribute up to 25% of earnings, but the City limits its match to 6.5%. The City made matching contributions of \$46,137 and employees elected to defer \$175,767 for a contribution of \$221,904, for municipal employees.

**12. OTHER POST EMPLOYMENT BENEFITS**

In June of 2004, the Governmental Accounting Standards Board (GASB) issued Statement 45 which addressed the reporting and disclosure requirements for other postemployment benefits (OPEB). GASB Statement 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, was implemented by the City for the year ended June 30, 2010. Under this pronouncement, it requires that the long-term cost of retirement health care and obligations for other postemployment benefits be determined on an actuarial basis and reported similar to pension plans.

Description of the Plan –

The City sponsors a single-employer post-retirement benefit plan providing health insurance to retiring employees through MMEHT. MMEHT issues a publicly available financial report that may be obtained through their website [www.cigna.com](http://www.cigna.com). The City does not provide any payment toward employee retirement benefits for health, dental or life insurances. However, if an employee meets the requirements, they may, at their own cost, remain on the employer’s health insurance plan.

Funding Policy and Annual OPEB Cost –

GASB Statement 45 does not mandate the prefunding of postemployment benefits liability. The City currently plans to fund these benefits on a pay-as-you-go basis. No assets have been segregated and restricted to provide postemployment benefits. The annual required contribution (ARC), an actuarial determined rate, represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize unfunded actuarial liabilities over a period not to exceed thirty years.

The following table represents the OPEB costs for the year and the annual required contribution:

Normal cost	\$ 17,253
Amortization of unfunded accrued liability	25,151
Interest	840
Annual required contribution (ARC)	<u>43,244</u>
Interest on net OPEB obligation	11,216
Amortizing adjustment to ARC	<u>(16,215)</u>
Annual OPEB cost	38,245
Contributions paid in 2015	<u>(5,263)</u>
Increase (decrease) in net OPEB obligation	32,982
Net OPEB obligation, beginning of year	<u>280,391</u>
Net OPEB obligation, end of year	<u><u>\$ 313,373</u></u>

**12. OTHER POST EMPLOYMENT BENEFITS - Continued**

The annual OPEB cost for the current year and two preceding years, the percentage of annual OPEB cost contributed to the plan, and the net OPEB (asset) obligation are as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of OPEB Cost Contributed</u>	<u>Net OPEB (Asset) Obligation</u>
06/30/15	\$ 38,245	12.17%	\$ 313,373
06/30/14	43,612	4.18%	280,391
06/30/13	44,367	4.18%	238,779

Funding Status and Funding Progress – The City’s annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the fiscal year ending June 30, 2015 was as follows:

Annual required contribution	\$ 43,244
Actual contribution	5,263
Percent contributed	12.17%
Actuarial accrued liability	\$ 452,315
Plan assets	-
Unfunded actuarial accrued liability (UAAL)	<u>\$ 452,315</u>
Covered payroll	\$ 3,899,519
UAAL as percentage of covered payroll	11.60%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial methods and assumptions – Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the City and plan members at that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of plan assets.

**12. OTHER POST EMPLOYMENT BENEFITS – Continued**

Significant methods and assumptions were as follows:

Actuarial valuation date	1/1/2015
Actuarial cost method	Projected unit credit cost method
Amortization method	Level dollar open
Remaining amortization period	30 years

Actuarial assumptions:

Investment rate of return	4.0%
Projected salary increases	3.0%
Healthcare inflation rate	4.25 - 8.5%

**13. PARTICIPATION IN PUBLIC ENTITY RISK POOL**

The City is a member of the Maine Municipal Association – Worker Compensation Trust Fund (“Fund”). The Fund was created to formulate, develop and administer a program of modified self-funding for the Fund’s membership, obtain lower costs for worker’s compensation coverage and develop a comprehensive loss control program. The City pays an annual premium to the Fund for its worker’s compensation coverage. The City’s agreement with the Fund provides that the Fund will be self-sustaining through member premiums and will provide, through commercial companies’ reinsurance contracts, individual stop loss coverage for member Cities for claims in excess of \$400,000 with an excess limit of \$2,000,000.

The City is also a member of the Maine Municipal Association – Property and Casualty Pool (“Pool”). As with the Fund above, the Pool was created to obtain lower rates for its members. The City pays an annual premium for its property and liability coverage. Under the property coverage portion of the Pool, coverage is provided after the deductible is met, to \$200,000,000. Under the liability portion of the Pool, coverage is provided after the deductible is met, to \$1,000,000.

**14. CONTINGENCIES**

The City participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the City’s compliance with applicable grant requirements may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

As of June 30, 2015 a major taxpayer has requested an abatement on property taxes. The outcome of the request cannot be determined at this time.

**15. JOINTLY GOVERNED ORGANIZATION**

The City and various entities in the region have jointly agreed to operate a vocational education school. A separate legal entity known as the United Technologies Center (UTC) was established by State law and is governed by a nine-member board, of which one member represents the City. Complete financial statements for the UTC can be obtained from the United Technologies Center, 200 Hogan Road, Bangor, Maine, 04401.

**16. PRIOR PERIOD ADJUSTMENT**

The net position of governmental activities decreased \$1,016,511 to reflect the net effect of net pension liability and deferred outflows of resources related to the implementation of Governmental Accounting Standards Board Statement 68, *Accounting and Financial Reporting for Pensions*.

**17. SUBSEQUENT EVENTS**

Management has evaluated subsequent events through November 16, 2015, the date on which the financial statements were available to be issued.
